PROFESSIONAL SUMMARY

Motivated DevOps Engineer with hands-on experience in Python, Git, Docker, Kubernetes, Ansible, Jenkins, and AWS. Proficient in building CI/CD pipelines, container orchestration, and infrastructure automation. Proven ability to deploy scalable applications and optimize deployment workflows. Seeking to leverage technical skills and problem-solving abilities to drive operational efficiency in cloud-native environments.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript, HTML, CSS

DevOps Tools: Docker, Kubernetes, Ansible, Jenkins, Git, GitHub, Vercel

Cloud Technologies: Amazon Web Services (AWS), Cloud Deployment, Infrastructure as Code

Core Competencies: CI/CD Pipeline Development, Container Orchestration, Deployment Automation, Version Control, Infrastructure Automation, Agile Methodologies, Problem Solving, Team Collaboration

PROFESSIONAL EXPERIENCE

DevOps Engineer - Academic Projects

June 2023 – November 2025

Presidency University

Bengaluru, Karnataka

- Containerized and deployed 3 web applications using Docker, reducing deployment time
- Designed and implemented automated CI/CD pipelines using Git and Vercel, enabling continuous delivery for 5 academic projects
- Developed Jenkins-based automation workflows to streamline testing and deployment processes, reducing manual intervention by 50 percent

PROJECTS

Devfolio - Personal Portfolio Website

2024

- Developed and deployed responsive portfolio website using HTML, CSS, and JavaScript with automated CI/CD pipeline on Vercel platform

Freelancer Web Application with Blockchain Integration

2024

- Built full-stack web application integrating Solana blockchain testnet for secure cryptocurrency payment processing
- Processed 150 plus test transactions with 100 percent success rate through robust backend validation and error handling

Real-Time Chat and Notification System

2024

- Engineered real-time bidirectional communication system using Socket.io and Node.js
- Optimized WebSocket connection pooling reducing server resource utilization by 25 percent while maintaining sub-100ms latency

CERTIFICATIONS

Codeathon 2023 - CodeChef

2023

- Participated in competitive programming competition with 200 plus participants, focusing on algorithmic problem-solving and data structures

Git and GitHub Workshop - Presidency University

2024

- Completed intensive 8-hour hands-on training covering version control, branching strategies, pull requests, and collaborative development workflows

EDUCATION

Presidency University

Bachelor of Technology in Computer Science and Technology (DevOps)

Yelahanka, Karnataka

June 2021 – November 2025

MES Kishora Kendra School and P.U. College

Pre-University – Science Stream (PCMB)

Malleshwaram, Karnataka

June 2019 – April 2021
